CAREER OBJECTIVES

My objective is to secure a challenging position within a dynamic organization, where I can apply my expertise in development to contribute effectively towards the organization's goals.

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS

Libraries / Frameworks: React.js, Express.js

Databases: MySQL, MongoDB

Tools / Platforms: VS Code, GitHub, Postman

EXPERIENCE

Software Developer

March 2025 – Present

Cronico Digital Private Limited

- Designed and developed robust backend APIs using Express.js, integrated RESTful services with React Native applications, and optimized database interactions to enhance overall system efficiency and scalability.

ReactJS Developer

July 2023 – Oct 2024

Codeworld Infotech Private Limited

- Developed and maintained web applications using ReactJS, integrating RESTful APIs to fetch and display dynamic data, and enhancing the overall user interface and user experience.

PROJECTS

Gym Management Software | API Development, React Native

- Currently contributing to a Gym Management software as part of my company project. Responsible for building APIs, developing web interfaces using EJS, and contributing to minor modules in React Native.

ERP Software | React.js, API Integration

- Developed a comprehensive ERP (Enterprise Resource Planning) software using React.js for the front-end, seamlessly integrating with a REST API for data management.

Course Enrollment System | React.js, PHP, MySQL

- Developed a full stack E-Learning Web Application, incorporating a user-friendly design and API integration. The application displayed available offline courses and allowed users to enroll in online courses with payment integration.
