## CAREER OBJECTIVES

My objective is to secure a challenging position within a dynamic organization, where I can apply my expertise in development to contribute effectively towards the organization's goals.

## TECHNICAL SKILLS

**Programming Languages:** JavaScript, HTML, CSS

**Libraries / Frameworks:** React.js, Express.js

**Databases:** MySQL, MongoDB

**Tools / Platforms**: VS Code, GitHub, Postman

## EXPERIENCE

**ReactJS Developer**                                                       **July 2023 – Oct 2024**
*Codeworld Infotech Private Limited*

- Developed and maintained web applications using ReactJS, integrating RESTful APIs to fetch and display dynamic data, and enhancing the overall user interface and user experience.
- Collaborated with the design team to implement web designs, ensuring compatibility across various devices and browsers.

## PROJECTS

**ERP Software** | *React.js, API Integration*

- Developed a comprehensive ERP (Enterprise Resource Planning) software using React.js for the front-end, seamlessly integrating with a REST API for data management. [Link]

**Course Enrollment System** | *React.js, PHP, MySQL*

- Developed a full stack E-Learning Web Application, incorporating a user-friendly design and API integration. The application displayed available offline courses and allowed users to enroll in online courses with payment integration. [Link]

## EDUCATION

**Sangmeshwar College, Solapur**                                               **2023-2025**
*Master in Computer Science (CGPA: 8.14)*

**Sangmeshwar College, Solapur**                                               **2020-2023**
*Bachelor of Computer Science (CGPA: 8.80)*

**Sangmeshwar College, Solapur**                                               **2019-2020**
*H.S.C (Percentage: 67%)*

**V.M. Mehta High School, Solapur**                                                 **2018**
*S.S.C (Percentage: 82%)*

## ACHIEVEMENTS

- Won first prize at Dexter Innofest Programming Competition from Solapur University
